## No Problem – No Solution. No Solution – No Problem!

In his anniversary exhibition, Stiletto presents the world of his "Design Hospital for tireless research into an effective remedy for good design", which was founded in 1991. In addition to the current DESIGN VERTReiB collection posters, objects and prototypes from the early years of Stiletto Studios as well as the stereoscopic installation „Speed of Light“ will be on display. A READY-MIX spectrum that extends from object in the mind's eye to its reflection – from the anti-design icon "CONSUMER'S REST Lounge Chair" (1983) to today's practical no-design product, the flexible plug-in "GLÜHWÜRMCHEN"® (also known as Germany's most popular kitchen lamp).
